About Your LITTLE EASY

Your LITTLE EASY Package contains:

Your LITTLE EASY Remote
Your LITTLE EASY Manual

Your manual is divided into two parts: set-up instructions and device codes. You will need your manual to set up your new LITTLE EASY so please be sure to keep it.

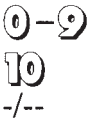

Your LITTLE EASY needs two new AAA/LR03 alkaline batteries.

Your LITTLE EASY can operate three devices: a Television, a Video and a Second Television or Video Recorder.

Features and Functions

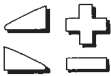

Key	Function
LED	The LED (Light Emitting Diode) flashes red to show the remote is working.
	Power The Power key controls the same function as it did on your original remote.
	MAGIC Key The MAGIC key is used to set up your LITTLE EASY and to access special functions.
	Device Keys The TV, VCR and AUX keys select the home entertainment device to be controlled. For example pressing the TV key allows the remote to control the functions of your Television, after pressing VCR you can operate your Video Cassette Recorder and the AUX key operates a second Television or Video Recorder.
	
	

Number Keys

The Number keys (0-9, 10) provide functions just like your original remote, such as direct access programme selection. If your original remote uses one/two digit input switching (-/-- symbol), this function can be obtained by pressing the -/-- key, which is the same as the 10 key.

Volume, Programme

The Volume and Programme keys control the most frequently used functions of your Television. They operate just as those on your original remote.

Scan

The Scan key allows you to easily browse through the programmes on your Television and Video Recorder. See page 13 for more information.

Mute

The Mute key operates the same function as it did on your original remote.

Video Recorder Keys

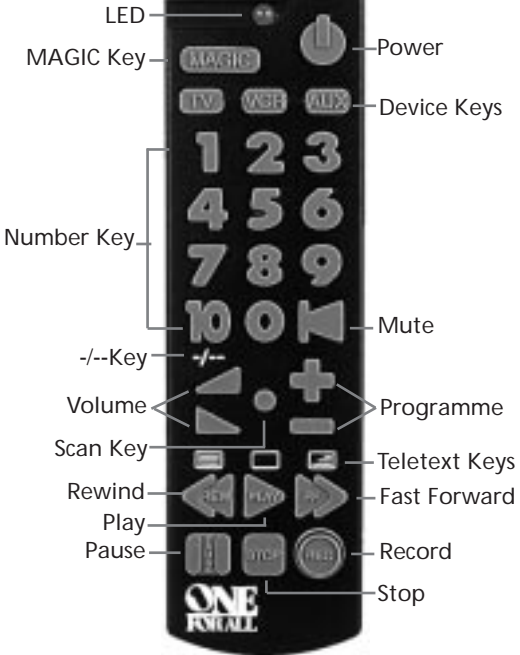

After pressing the VCR key, the Video Recorder keys operate the functions of your Video Recorder. To prevent accidental recording, the Record key must be pressed **twice** to start recording.

Teletext Keys

After pressing the TV key, the top row of the Video Recorder keys are used to operate the main teletext functions. The symbols above the keys are for teletext. The Text keys are used to access the teletext functions of your Television. Of course, your Television must be teletext capable. For an explanation of the teletext symbols, please refer to page 15 of this manual. For a detailed explanation on how teletext works, please refer to the manual of your television set.

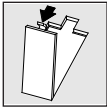

Installing the Batteries

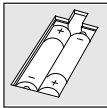

Your LITTLE EASY needs two new AAA/LR03 alkaline batteries.

1

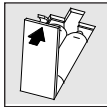

Remove the battery cover from the back of your LITTLE EASY.

2

Match the batteries to the + and - marks inside the battery case, then insert the batteries.

3

Press the battery cover back into place.

Note: In order to avoid having to reprogramme your Little Easy after you remove the batteries, you will need to insert new batteries within 3 minutes. Also it is best that you do not use rechargeable batteries.

Sleeptimer

Sleeptimer is a feature which comes built into many TVs. It allows you to set your device to turn off within a certain amount of time. This feature comes in handy if, for example, you enjoy falling asleep with your television on.

With the ONE FOR ALL, there are two ways to use the sleeptimer. If your TV came with this feature built in, follow the instructions "Device Sleeptimer" below. If your device did not come with this feature, follow the instructions "ONE FOR ALL Sleeptimer".

Device Sleeptimer

If your TV has a "Sleeptimer" function built in, you can access this function with your ONE FOR ALL remote. To do so:

- 1 Make sure your TV is switched on.
- 2  Press the TV key.
- 3 
 Point the ONE FOR ALL at your TV and press and release **MAGIC** then press **POWER**. You should see the Sleeptimer activate on your TV screen. To increase the timer, simply press MAGIC then POWER until the timer gets to the desired time.

To deactivate the Sleeptimer, repeat steps 1-3 above. During step 3, continue pressing Magic then Power until the timer indicates zero minutes.

Note: Remember, your device must have its own Sleeptimer function in order for the above instructions to operate. If your device does not have its own Sleeptimer, follow the instructions outlined below.

You can press **POWER** a maximum of four times which will set the timer to 60 minutes.

 (:60)

Once you have set the timer to the desired time, set your ONE FOR ALL remote down, pointing it at your device. When the programmed amount of time has elapsed, the ONE FOR ALL will send the command for Power, hence turning off your device.
